Grad Poreč	'Systematic energy management'	http://www.porec.hr/prva.aspx?stranica=7300&pid=&j=CRO	10. - 11 .09. 2015.	Croatia	Poreč - Parenzo	'Systematic energy management' is a project implemented by APN, Zagreb and Town of Poreč - Parenzo. It was established under the United Nations Development Programme and is an ongoing project. Its goal was to implement a web platform (ISGE), that allowed local authorities to monitor consumption of energy and water in the buildings that are owned by them and of public use. One of the ongoing activities is education of employees in the public sector about the importance of efficient energy consumption in everyday life. Implementation of educational activities complies with the existig SEAP (Sustainable Energy Action Plan of Town of Poreč - Parenzo). During scheduled educational workshops, a short
