Report:

Aim of the event:

(max 500 words)

The specific goal of Energy days is to increase awareness of energy efficiency possibilities and use of renewable energy resources. 2 days manifestation was organised for public administration representatives but also for small and medium enterprises and citizens in order to present them EU funds and other models which are available for energy efficiency projects. Some new heating systems and “zero energy” buildings were presented as much as biomass energy availability in Istria.

Meanwhile, there was an open exhibition with products which are important for energy savings. All visitors had an opportunity to learn how to recycle waste.

One of the lectures had intention to present Life SEC Adapt activities so there was an presentation of methodology for Climate changes Risk and vulnerability assessment.

On the 2nd day of event there was a presentation of solar tree which has 8 connectors for charging mobile phones and tablets.

Specific SEC ADAPT Partners activity (presentation, participation to workshop, poster etc)

(max 500 words)

City of Pazin: organized event and presented “solar tree”

Istria region: lecture “Biomass energy in Istria”

IDA: RVA Methodology presentation

Lesson learnt to spread with LIFE SEC ADAPT partners:

It's important to plan activities and energy efficiency projects so that awareness of renewable energy resources can spread. The event was held on Day of planet Earth. Life SEC Adapt activities will bring out Climate change adaptation plan so this kind of events are important to view wider image of possibilities and measures implementation.
