The main result has been the common proposal of the situation of each municipalities in the Region of Murcia about the execution of their Adaptations Plans. In this way, we have checked that Bullas goes in front of the rest, being pioneer in a regional level both in the Covenant of Mayors as in the old initiative Mayors Adapt.

The need for adherence and upgrading to achieve the aims proposal to 2030 in the fight against Climate Change.

As main conclusion, it was adopted a commitment of the municipalities to support regional governments, both in a resources humans and techniques level as economic resources level to confront this dare of adaptation and mitigation with guarantees.
