Main thematic addressed:	<ul style="list-style-type: none"> <i>Climate Mitigation</i> <i>RES (Renewable Energy Systems)</i> <i>Energy Saving</i> <i>Sustainable development</i> <i>energy efficiency - funding opportunities</i>
type of stakeholders involved (specify numbers if possible)	<ul style="list-style-type: none"> <i>Public Administration (Center for Energy Sector and Investment Monitoring, Ministry of Construction and Physical Planning, Ministry of Environmental Protection and Energy, Real Estate Agency)</i> <i>Istria Region, cities of Istria Region</i>
Territorial level	<ul style="list-style-type: none"> <i>Regional / Local</i>
specify territories	<i>Istria Region - cities of Istria Region</i>

Report:

Aim of the event:

One of the aims of the workshop was to establish even better cooperation between IRENA and Istrian cities and to present project SUPPORT objectives.

Project SUPPORT tackles the difficulties encountered by cities in the implementation of sustainable energy policies. SUPPORT aims to improve the coordination and performance of policy instruments to implement national and regional energy efficiency programmes at local level.

Specific SEC ADAPT Partners activity

The workshop was primarily intended for Istrian municipalities, and was attended by representatives of all Istrian cities. After the presentation, the organizers conducted a discussion with the participants about energy efficiency in the Istrian Region, problems in the implementation and monitoring of SEAP's, gathering data for SECAP's, identifying obstacles in using funding opportunities.

Lesson learnt to spread with LIFE SEC ADAPT partners:

Ministry of Construction and Physical Planning, Ministry of Environmental Protection and Energy, and APN (Real Estate Agency) presented the implementation of the EE measures on national level and the forthcoming tenders under the authority of their ministries / agencies. This was a great opportunity for municipal representatives to ask questions and comment energy efficiency programmes with the representatives of the ministry.

Cities of Istrian Region exchanged their experience in implementing and monitoring action plans, gathering data and possible solutions for more effective use of available funding opportunities.
